MULTI-FACTOR AUTHENTICATION (MFA)

SMS Authentication Method
Installation Guide

SMS AUTHENTICATION METHOD

When you first log into UniFI or UniFI 2.0, you will be prompted to set up multi-factor authentication (MFA).

SET-UP TAKES JUST A FEW MINUTES

Step 1

When you click on the UniFI or UniFI 2.0 link from iADS website, you will be redirected to the portal webpage, where you will be asked to enter your **Username***.

* If you are accessing UniFI or UniFI 2.0 from your (OEM/SSO) Portal, you will not need to put in your username and password. Your step 1 will start at step 3.

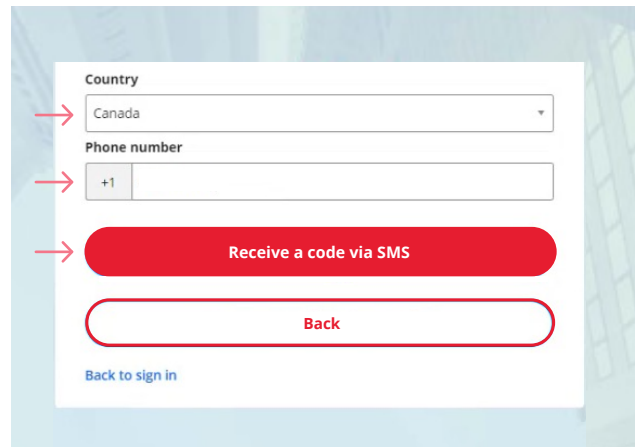

Step 3

Click on the **Select** button in the Phone Authentication section.

Step 4

Next you will be asked to select the **Country** and enter the **Phone number** where you wish to receive your security code. Then click on **Receive a code via SMS**.

Step 5

Once you have received the unique security code, you will need to **Enter the code** that is given to you and click **Next**.

A code was sent to your phone . Enter the code below to verify.
Carrier messaging charges may apply.

Enter Code

Back to sign in

This screenshot shows a white card on a light blue background. At the top left is a user icon. Below it is a message: "A code was sent to your phone . Enter the code below to verify. Carrier messaging charges may apply." Underneath is a text input field labeled "Enter Code" with a red arrow pointing to it. Below the input field are two red buttons: "Next" and "Back", with red arrows pointing to each. At the bottom left is a blue link "Back to sign in".

Step 6

You have now completed the SMS Authentication set-up and will be taken back to the configuration page.

You can choose to set up an additional MFA method; or click on **Finish** to continue to your UniFI or UniFI 2.0 Portal.

Security methods help protect your account by ensuring only you have access.

Set up optional

Google Authenticator
Enter a temporary code generated from the Google Authenticator app
Used for access
Select

Okta Verify
Okta Verify is an authenticator app, installed on your phone, used to prove your identity
Used for access
Select

Finish

Back to sign in

This screenshot shows a white card on a light blue background. At the top left is a user icon. Below it is a heading: "Security methods help protect your account by ensuring only you have access." Underneath is a section "Set up optional" with two items: "Google Authenticator" and "Okta Verify". Each item has a description and a red "Select" button. At the bottom of the card is a large red button labeled "Finish" with a red arrow pointing to it. At the bottom left is a blue link "Back to sign in".

Going forward, when you log into the UniFI or UniFI 2.0 Portal, you may be **prompted to provide a unique security code**, which will be sent through SMS (text message).
