

2018

Contributions and benefits

Here are the 2018 parameters for some government programs in Canada that impact the administration or coverage provided by private benefits plans.

For more information, please consult the websites.

1 Retirement income security system

Canada's retirement income security system has three levels. Levels 1 and 2 provide basic retirement income through public plans, while level 3 provides complementary retirement income through private plans.

Level 1

Universal public pension plan

— Old Age Security (OAS)

The OAS program is funded from the federal government's general revenue, so no direct contribution is required from the employer or the employee.

Maximum monthly benefit*	2017 (January – March)	2018 (January – March)
OAS pension	\$578.53	\$586.66

* Benefit provided to seniors aged 65 and over who meet residence requirements in Canada. The actual benefit amount is based on the number of years a person has lived in Canada since the age of 18. This amount is indexed quarterly based on cost of living increase. Those with net income over the \$75,910 threshold in 2018 will have to pay back part or all of their OAS pension.

Additional benefits, such as the Guaranteed Income Supplement, the Allowance and the Allowance for the Survivor, are available to low-income seniors.

2 Employment Insurance

To be eligible for health, maternity or parental benefits under the federal *Employment Insurance Act*, an employee must have accumulated 600 insurable hours in the 52-week period preceding the claim. Health and maternity benefits are payable for a maximum of 15 weeks and parental leave benefits are payable for a maximum of 35 weeks. A combination of maternity, parental leave and health benefits can be paid up to a maximum of 65 weeks if specific conditions are met. The amount of the weekly benefit depends on the employee's earnings in the last 26 weeks of employment.

Québec Parental Insurance Plan

Since January 1, 2006, Quebec employees can benefit from the Québec Parental Insurance Plan (QPIP). Quebec-based employers and employees contribute to this program, which pays benefits for maternity, paternity, adoption and parental leaves. 3 Workers' compensation

Workers' compensation plans are governed by provincial legislation and financed by employers. In some provinces, participation in such plans is mandatory for certain employers or groups of workers. Premiums vary according to the type of industry and the size of the company or rating class in each province. Workers' compensation plans mainly provide for income replacement benefits and can also reimburse certain medical costs. These benefits are not taxable.
