

The Rave 2 connection is now made via *Pulse Secure*!

Pulse Secure is now officially installed on your computer!
This is the new way to remotely connect with Rave 2.

THE USE OF INTERNET EXPLORER IS NO LONGER THE WAY TO REMOTELY CONNECT.

To launch Pulse Secure, click on the icon (A), choose your connection (B) and click on Connect (C).

The geographic setting may change while converting to the new Pulse Secure. Where Pulse Secure asks you which realm to connect to, choose the one that corresponds to your geographic area or subsidiary and click on "Save Settings" to make sure it does not ask again.

IA Quebec:	iA Head Office
IAAH:	iA Auto and Home
IPA:	iA Pacific
IAT:	iA Toronto NL

Pulse Secure

Connect to: Rave 2

Please select a Realm:

- IA Quebec Rave 2

Enter your PIN + token number

Settings

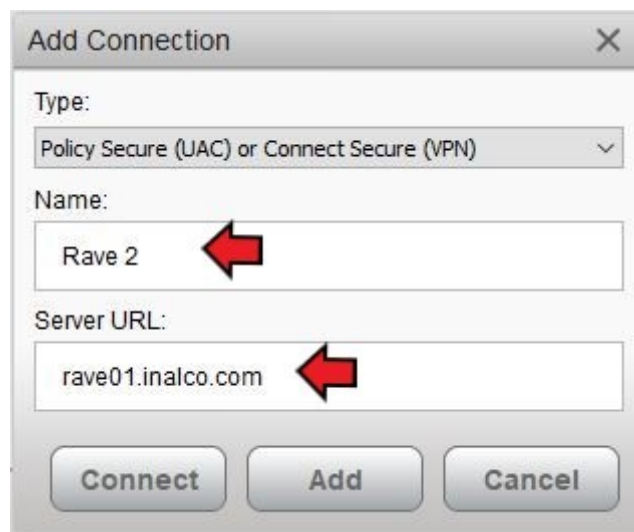

If the steps listed above are not available, it might be because you have to configure the Pulse Secure. Here's how:

- Click on the Pulse icon and click on "Open Pulse Secure"
- Click on the plus sign (+) to create a new connection.

- Enter the following information:

Name: Rave 2
Server URL: rave01.inalco.com
Then click on "Add"

- You are ready to connect. Please try the connection procedure at the beginning of this document.
Have a good day!
