Earnings visibility with various profit improvement initiatives

Multiple levers to reach or exceed our 10% EPS growth target

- 6% organic growth
- 3% profit improvement in all lines of business
- 1% distribution a core function
- 2% acquisitions (US and distribution) and NCIB

≥ 10% annual EPS growth

2019 initiative areas
- Employee Plans
- US Operations
- Dealer Services
- Investment income on capital

Update after 6 months
- Strong momentum continued
- Double-digit growth in both divisions
- Good growth from P&C and strong growth from car loans
- Investment strategies and portfolio optimization in progress
- Ongoing projects to create efficiency gains
- Efficiency gains to come
H1/2019 highlights - A very good first half of the year

EPS at top of guidance - Growing assets and P&D – Solid capital position

Profit

• Reported EPS of $3.09 and trailing-12-month ROE of 12.6%\textsuperscript{1}
• Core EPS of $2.89, at top of $2.70-$2.90 guidance
• Expected profit up 11% YoY and experience gains in all five lines of business
• Many positive items: P/H experience, strain, income on capital, hedging program and iA Auto and Home

Growth

• AUM/AUA\textsuperscript{1} of $186.5 billion (+5% YoY) and premiums and deposits of $5.5 billion (+2% YoY)
• Canada: Good sales for seg funds, Group Savings, Dealer Services, Special Markets Solutions and iAAH
  • Individual Insurance is improving
• US: Strong momentum continues for sales in both Individual Insurance and Dealer Services

Capital

• Solvency ratio of 127\%\textsuperscript{1}, above 110%-116% target
• Low leverage ratio of 18.1\%\textsuperscript{1}
• 65% of earnings returned to shareholders in the form of dividends and buybacks
• Book value per share of $49.70\textsuperscript{1} (+8% YoY)

This slide presents non-IFRS financial measures. See "Non-IFRS Financial Information" at the end of this document for further information.

Key reserve assumptions are well positioned

2018 year-end assumption review
- No material issue in 2018
- URR is 15 bps ahead of the promulgated rate

Recent policyholder experience
- 2018: Favourable across all operations
- H1/2019: Globally above expectations

Two significant turnarounds
- iAAH: outperformance after 3 years of losses
- Employee Plans division in Group Insurance: successful realignment after a few difficult years

Businesses and reserves managed with a long-term view
Decreasing interest rates

Expecting minimal impact on 2019 profitability

**Main impacts on earnings**

- **Year-end impact on reserves:**
  - IRR: Reduced exposure currently at $12M/10 bps variation  
    → H1/19 management actions sufficient to cover YTD IRR reduction
  - URR: Already using new CIA promulgated rate  
    → No impact in 2019

- **Taxation:** Higher due to value increase of some taxable assets

**Other potential impacts**

- **Solvency ratio:** No material impact (refer to disclosed sensitivities)
- **Products:** iA diversified away from products with LT guarantees
- **Financing:** Positive impact from lower financing cost
Sustaining outperformance through business growth

Solid execution during H1/2019

**Insurance in Canada**
- Individual insurance: **1st** in number of policies sold
- Dealer services: One of top 2 providers in Canada & **5%** YoY sales growth
- Special markets solutions: **11%** YoY sales growth
- iA Auto and Home: **7%** YoY sales growth

**Wealth in Canada**
- Seg funds: **1st** in net sales with $251M net inflows
- Mutual funds: Net outflows in H1/2019 – Deploying affiliated wealth distribution strategy in 2019
- Guaranteed products (general fund): Strong sales of **$207M**
- Group savings and retirement: **14%** YoY sales growth

**US divisions**
- Individual insurance: **13%** YoY sales growth
- Dealer services: **17%** YoY sales growth

This slide presents non-IFRS financial measures. See "Non-IFRS Financial Information" at the end of this document for further information.
Growing through acquisitions is a priority

US businesses and distribution in Canada are top priorities

**Recent acquisitions**

- **HollisWealth**: iA is now one of the largest non-bank distribution networks
- **DAC**: Moving toward a meaningful business in the US
- **PPI and ABEX**: iA is now the leader in independent insurance brokerage distribution, with strengthened insurance distribution capacity in Western Canada

**Current targets**

**US businesses**
- Individual insurance
- Dealer services

**Distribution**
- Becoming a meaningful business for iA in Canada
- Affiliated distribution makes it easier to deliver value to clients
Flexible balance sheet and better than ever capital position

Acquisitions are top priority for capital deployment

**Capital generation (H1/2019)**
- ~$145M in organic generation, in line with annual plan
- ~$360M in capital relief from investment strategies to manage macroeconomic risks

**Solid ratios**
- Leverage ratio of 18.1%
- Coverage ratio of 15.9x

**High capital flexibility**
- Potential capital deployment of ~$1.2B (by increasing leverage ratio and reducing solvency ratio, in accordance with regulatory constraints)

**Dividend & NCIB**
- Steady dividend increases every 3rd quarter in line with target payout ratio of ~30%
- During Q4/2018 and H1/2019: 3.3% of outstanding shares\(^1\) redeemed
- iA can buy back up to 5% of its shares\(^1\) for cancellation by Nov. 11, 2019\(^2\)

---

This slide presents non-IFRS financial measures. See "Non-IFRS Financial Information" at the end of this document for further information. ¹ As at November 1, 2018. ² See initial news release for more details.
Focus:
- Improving customer experience
- Supporting distribution and value of advice
- Improving organizational efficiency

Enablers for key digital initiatives:
- Systems and technologies
- Operating models and partnerships
- Business intelligence and analytics
- Talent and culture

iA’s success differentiators:
- iA stands out for its agility
- Leveraging our success in the Group businesses
- Leading in point-of-sale approvals in Individual

Business drives technology
Digital investments must create value
Upgrade rationale:

- Business risk profile is strong and improving
- Operating performance in the top quartile in the past few years
- Current levels of capital can be maintained while further diversifying earnings profile and returns

No offer or solicitation to purchase

This presentation does not, and is not intended to, constitute or form part of, and should not be construed as, an offer or invitation for the sale or purchase of, or a solicitation of an offer to purchase, subscribe for or otherwise acquire, any securities, businesses and/or assets of any entity, nor shall it or any part of it be relied upon in connection with or act as any inducement to enter into any contract or commitment or investment decision whatsoever.
Non-IFRS financial information

iA Financial Corporation reports its financial results and statements in accordance with International Financial Reporting Standards (IFRS). It also publishes certain financial measures that are not based on IFRS (non-IFRS). A financial measure is considered a non-IFRS measure for Canadian securities law purposes if it is presented other than in accordance with the generally accepted accounting principles used for the Company's audited financial statements. These non-IFRS financial measures are often accompanied by and reconciled with IFRS financial measures. For certain non-IFRS financial measures, there are no directly comparable amounts under IFRS. The Company believes that these non-IFRS financial measures provide additional information to better understand the Company's financial results and assess its growth and earnings potential, and that they facilitate comparison of the quarterly and full-year results of the Company's ongoing operations. Since non-IFRS financial measures do not have standardized definitions and meaning, they may differ from the non-IFRS financial measures used by other institutions and should not be viewed as an alternative to measures of financial performance determined in accordance with IFRS. The Company strongly encourages investors to review its financial statements and other publicly-filed reports in their entirety and not to rely on any single financial measure.

Non-IFRS financial measures published by the Company include, but are not limited to: return on common shareholders' equity (ROE), core earnings per common share (core EPS), core return on common shareholders’ equity (core ROE), sales, net sales, assets under management (AUM), assets under administration (AUA), premium equivalents, deposits, sources of earnings measures (expected profit on in-force, experience gains and losses, strain on sales, changes in assumptions, management actions and income on capital), capital, solvency ratio, interest rate and equity market sensitivities, loan originations, finance receivables and average credit loss rate on car loans.

The analysis of profitability according to the sources of earnings presents sources of income in compliance with the guideline issued by the Office of the Superintendent of Financial Institutions and developed in co-operation with the Canadian Institute of Actuaries. This analysis is intended to be a supplement to the disclosure required by IFRS and to facilitate the understanding of the Company's financial position by both existing and prospective stakeholders to better form a view as to the quality, potential volatility and sustainability of earnings. It provides an analysis of the difference between actual income and the income that would have been reported had all assumptions at the start of the reporting period materialized during the reporting period. It sets out the following measures: expected profit on in-force business (representing the portion of the consolidated net income on business in force at the start of the reporting period that was expected to be realized based on the achievement of best-estimate assumptions); experience gains and losses (representing gains and losses that are due to differences between the actual experience during the reporting period and the best-estimate assumptions at the start of the reporting period); new business strain (representing the point-of-sale impact on net income of writing new business during the period); changes in assumptions, management actions and income on capital (representing the net income earned on the Company's surplus funds).

Sales is a non-IFRS measure used to assess the Company's ability to generate new business. They are defined as fund entries on new business written during the period. Net premiums, which are part of the revenues presented in the financial statements, include both fund entries from new business written and in-force contracts. Assets under management and administration is a non-IFRS measure used to assess the Company's ability to generate fees, particularly for investment funds and funds under administration. An analysis of revenues by sector is presented in the Analysis According to the Financial Statements section of the Management's Discussion and Analysis.

Core earnings per common share is a non-IFRS measure used to better understand the capacity of the Company to generate sustainable earnings.

Management's estimate of core earnings per common share excludes: 1) specific items, including but not limited to year-end assumption changes and unusual income tax gains and losses; 2) market gains and losses related to universal life policies, investment funds (MERs) and the dynamic hedging program for segregated fund guarantees; 3) gains and losses in excess of $0.04 per share, on a quarterly basis, for strain on Individual Insurance sales, for policyholder experience by business segment (Individual Insurance, Individual Wealth Management, Group Insurance, Group Savings and Retirement, US Operations and iA Auto and Home Insurance), for usual income tax gains and losses and for investment income on capital.
Forward-looking statements

This presentation may contain statements relating to strategies used by iA Financial Group or statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “may”, “will”, “could”, “should”, “would”, “suspect”, “expect”, “anticipate”, “intend”, “plan”, “believe”, “estimate”, and “continue” (or the negative thereof), as well as words such as “objective” or “goal” or other similar words or expressions. Such statements constitute forward-looking statements within the meaning of securities laws. Forward-looking statements include, but are not limited to, information concerning the Company’s possible or assumed future operating results. These statements are not historical facts; they represent only the Company’s expectations, estimates and projections regarding future events.

Although iA Financial Group believes that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, and actual results may differ materially from those expressed or implied in such statements. Factors that could cause actual results to differ materially from expectations include, but are not limited to: general business and economic conditions; level of competition and consolidation; changes in laws and regulations including tax laws; liquidity of iA Financial Group including the availability of financing to meet existing financial commitments on their expected maturity dates when required; accuracy of information received from counterparties and the ability of counterparties to meet their obligations; accuracy of accounting policies and actuarial methods used by iA Financial Group; insurance risks including mortality, morbidity, longevity and policyholder behaviour including the occurrence of natural or man-made disasters, pandemic diseases and acts of terrorism.

Additional information about the material factors that could cause actual results to differ materially from expectations and about material factors or assumptions applied in making forward-looking statements may be found in the “Risk Management” section of the Management’s Discussion and Analysis for 2018 and in the “Management of Risks Associated with Financial Instruments” note to the audited consolidated financial statements for the year ended December 31, 2018, and elsewhere in iA Financial Group's filings with Canadian securities regulators, which are available for review at sedar.com.

The forward-looking statements in this presentation reflect the Company's expectations as of the date of this presentation. iA Financial Group does not undertake to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events, except as required by law.
