

COMMUNIQUÉ

To Group Insurance plan administrators
Drug management

Expertise | Our team welcomes a new pharmacist

On October 8, Erika Hatherly joined our group insurance team as **Strategic Leader, Drug Programs**.

A pharmacist by profession, Erika has over 10 years' experience in the field. Based in Toronto, Erika will play a key role in developing our global drug management strategy, and in communicating our service offering to our clients and financial partners across Canada.

Erika Hatherly
Strategic Leader, Drug Programs

Her expertise puts her at the core of drug management strategies for our group insurance clients. Working closely with Frédéric Leblanc—a renowned pharmacist on our team who has held the same position as Erika for over five years—she will help strengthen our industry-leading position through optimal and innovative drug plan management. With the arrival of our newest recruit, our team of specialists continues to grow and equip itself to face the many current and future challenges of managing drug insurance plans, for your benefit.

Our pharmacists Erika Hatherly and Frédéric Leblanc

For over 70 years, employers from coast to coast have been relying on our group insurance and retirement experts to effectively manage their plans.

You, as the plan administrator, have an important role to play in informing your plan members about their group insurance plan. We also look to your support to give them all explanatory and administrative documents upon enrolment or upon request. We will help you show them where they can consult this documentation if it is not available in hard copy. If you have any questions, please feel free to consult your administrator's guide or to contact your local Account Executive or Client Relationship Manager.
