To Group Insurance plan administrators  
Income tax

## 2025 income taxes | A list to make things easier for your plan members

Preparing a tax return involves gathering all the documents needed to file it—a necessary but somewhat daunting task.

At the start of every year, we post a list in My Client Space and iA Mobile of all medical and dental expenses that plan members claimed in the previous year.

The list gives them a summary of their expenses to make it easier for them to file their tax return without the effort of having to search for all their receipts. One less headache!

To help you remind plan members that the list is available, we've prepared two tools:

A [leaflet \(French version\)](#)

An [email \(French version\)](#)

You, as the plan administrator, have an important role to play in informing your plan members about their group insurance plan. We also look to your support to give them all explanatory and administrative documents upon enrolment or upon request. We will help you show them where they can consult this documentation if it is not available in hard copy. If you have any questions, please feel free to consult your administrator's guide or to contact your local Account Executive or Client Relationship Manager.

This communiqué and past publications are also available on our website [ia.ca](http://ia.ca).
